

Temporis 350 Desktop Telephone

This phone is designed to facilitate your communications; you're going to love its practicality.

Call up your top contacts easily, with the ten direct memory keys and use its high-quality hands-free function to organise your mini-meetings.

Take calls directly with your headset, using the dedicated headset key, without having to lift the handset.

Finally, thanks to the new message indicator light*, you can see at a glance when someone has left you a message in your absence.

**Subject to availability of PABX functionality or service provider subscription*
